

COMATCH connects independent consultants and industry experts with companies of any size and sector: The pool of more than 6000 handpicked consultants grows every day and helps start-ups, small and medium-sized businesses, consulting firms and big enterprises to approach and master challenges. COMATCH acts fast, offers excellent consulting and focuses on personal relationships with all business partners. As one of the fastest growing digital start-ups in Germany we are aiming to continue our exceptional path and want to become Europe's biggest consultant marketplace within the next years. To realize this vision, we need support and are currently looking for you as:

UI / UX Designer (m/f)

YOUR RESPONSIBILITIES

- Translate complex product requirements into intuitive user-centered concepts and UI designs
- Collaborate deeply with product managers, stakeholders and developers through the entire product lifecycle
- By validating assumptions with proper user research and usability testing, you make sure you're addressing the right problems the right way
- Create high-fidelity compositions, wireframes, prototypes or user flows to visualize your concepts
- Apply and develop the internal UI-style guide further in cooperation with the other designers

YOUR PROFILE

- 2+ years of experience as a UX Designer, Product Designer or a related field
- A university's degree of interaction design, visual design or related field
- A solid understanding of user experience, user research, information architecture, interaction design and UI design, user centered design process and design principles
- Problem solving and communication skills that demonstrate you know how to understand the users' needs and can translate those needs into modern and intuitive experiences. You're able to ask the right questions, give feedback and critique your own solutions
- Both conceptual and visual design skills, as well as experience in working in cross-functional teams in an agile environment
- Ability to use the common design tools and services like Sketch, InVision, Zeplin, plus deep knowledge and interest in digital trends and cutting edge web design
- Fluency in English, German or French is a bonus
- Experience in writing copy for interfaces is a bonus

OUR OFFER

- Individual responsibility and freedom of choice from day one
- Great opportunities for personal development in an ambitious and motivated team with passion for business and fun at work
- Flexible working models and an attractive salary package
- Amazing office in Berlin and unforgettable team events

IS THIS YOUR CHALLENGE?

We look forward to receiving your application including your CV, portfolio and relevant references. Please include your availability and salary expectation in your motivation letter.
